

ECOMSAAS

SERVICE PLATFORM FOR CONNECTED SYSTEMS

i An integral part of the ECOMESURE connected systems, EcomSaaS is a **service package based on a web platform www.i-comesure.com** in SaaS mode which considerably simplifies sensor control and data processing, thus achieving significant savings.

EcomSaaS in conjunction with :

Ecombox
A universal box connecting a variety of measurement instruments to the web platform.

Ecomzen, Ecomsmart, Ecomlite
Stations connected to the web platform offering a range of parameters to measure air quality.

+ BENEFITS

- + Manage all sensors and data live on a single platform
- + Common solution for all the Ecomesure connected systems
- + Accessible 24/7 from any terminal connected to the internet (PC, tablet, smartphone)
- + Secure transfer, storage and access to the data
- + Easy connection to other servers and platforms by FTP or API
- + Intuitive and easy to use
- + Scalable solutions

+ APPLICATIONS

- ✓ **Environmental monitoring**
Air, water, noise, electromagnetic waves, meteorology, radioactivity, etc.
- ✓ **Smart Factories**
Industrial process control, metering, servo systems, traceability etc.
- ✓ **Smart Grid**
Resources management, energy consumption management, waste treatment, water treatment, etc.
- ✓ **Smart Building**
Technical building management
- ✓ **Smart Cities**
Consolidation of urban data

ECOMSAAS

SERVICE PLATFORM FOR CONNECTED SYSTEMS

Interface

Index interface

Air quality monitoring with Ecomzen, Ecomsmart and Ecomlite

Scientific interface

Control of all types of environmental and operational data sensors

Two formulas

1 - Annual subscriptions

Packages <i>depending on the type of use</i>	STARTER	MANAGER	EXPERT
User support	✓	✓	✓
Mapping	✓	✓	✓
Data real time display	✓	✓	✓
Multi-display mode (index and scientific)	✓	✓	✓
Device status	✓	✓	✓
Device remote control		✓	✓
Data storage ¹		✓	✓
Data downloading		✓	✓
Alerts/alarms by SMS and E-mail ²		✓	✓
Data analytics reports - access		✓	✓
Virtual Integrated Devices (VID)			✓
Data ciphering ³			✓
API link			✓
Data base export			✓

2 - MOD «Measurement On Demand» *no binding commitment*

(1) Last 12 months of data available
 (2) Limited to 3 email addresses and 3 mobile phone numbers, 1 email/hour, 1 SMS/day
 (3) Under development
